

SAVE THE DATE!

PROJECT WET UPDATED TRAINING

February 9, 2012 – North Shore

February 16, 2012 – South Shore

A completely revised, updated, and expanded Project WET Curriculum and Activity Guide was finally released in September! This major revision of the 15 year-old original guide began 3 years ago driven by emerging water issues, new scientific discoveries and breakthroughs, changing educational priorities and reform, and the availability of information technology and social connectivity. The new Project WET program that is emerging encompasses not only the new guide but also a Portal, expanded resources and networking opportunities.

Thursday, February 9, 2012 (10:00am to 4:00pm)
Tahoe Center for Environmental Sciences
291 Country Club Drive, Incline Village, NV 89451

Thursday, February 16, 2012 (10:00am to 4:00pm)
US Forest Service, Lake Tahoe Basin Management Unit
35 College Drive, South Lake Tahoe, CA 96150

Cost: FREE Project WET Guide 2.0 for California Educators (includes 65 activities with 22 new activities and Web Portal access code). Free Guides for all participants funded by USGS California Water Science Center and Nevada Division of Environmental Protection (\$25 value).

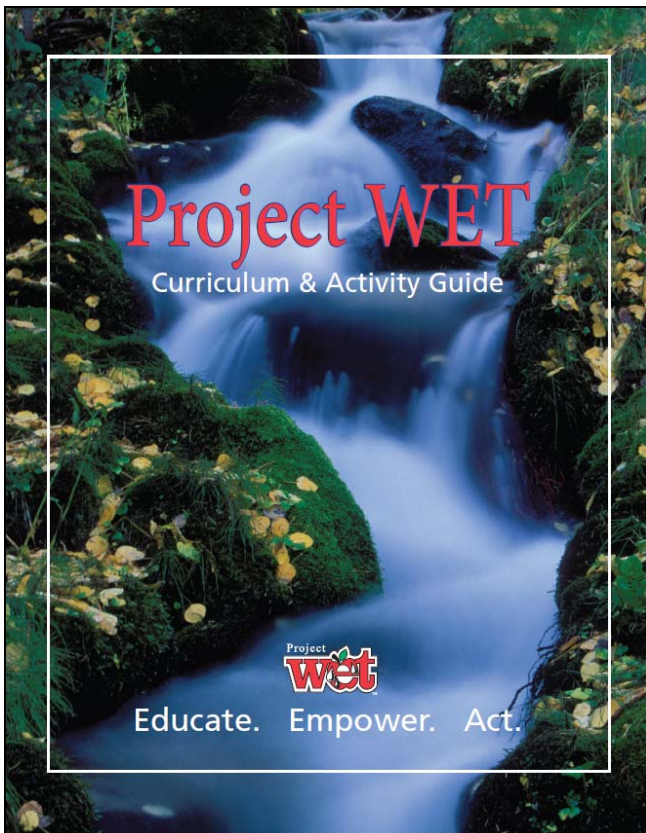

Optional Lunch \$6 - 10 (please bring cash, exact change preferred)

For more information and/or to register, please contact:

North Shore (2/9/12) Registration: Dana Olson, TRCD, (530) 543-1501, ext. 120, dolson@tahoercd.org
South Shore (2/16/12) Registration: Megan Dee, USFS, (530) 543-2618, mldee@fs.fed.us

Registration will close Friday, February 3, 2012!

California Project WET is sponsored by the Water Education Foundation, the Bureau of Reclamation, US Geological Survey - California Water Science Center and the California Department of Water Resources.

Now Available!

Project WET Curriculum & Activity Guide 2.0

- ✚ *New and revised activities for the 21st Century!*
- ✚ *Aligned to Common Core Standards!*
- ✚ *Extensive Technology and Literature links!*
- ✚ *Expanded ActionEducation™ focus!*

Project WET is entering a new chapter in water resources education. What began as a major revision of the original *Project WET Curriculum and Activity Guide* has resulted in a new program and mindset. Driven by emerging water issues, changing educational priorities, new science discoveries and breakthroughs in how water is used, managed and protected, and the availability of information technology and social connectivity, the new program encompasses a whole new world of water education that includes:

Project WET Portal: an online community that will bring together resources and people to increase scope and reach of Project WET's award-winning water education methodology.

ActionEducation™: Ideas for community-based projects that move the learner from awareness to empowerment, giving students and teachers ways to engage in local water issues through appropriate and locally sustainable solutions.

Project WET Reading Corner: Many of the recommended books are chosen from state recommended reading lists to make curriculum incorporation easier.

New Activities: Current content gaps have been targeted with new activities *oceans; water and human health; climate, weather and change; recycling; ocean environments and special water places.*

Methodology: We retain our hallmark methodology- teaching about water resources through *hands-on, investigative, easy-to-use activities* and our commitment to provide materials that are *interactive, accurate and science-based, multisensory, adaptable, contemporary, relevant, solution-oriented* and *measurable.*
