

ATTENTION FUTURE SCIENTISTS

Learn about environmental, earth & space science
Perform science experiments & community outreach
Receive community service credit
Make new friends
Acquire job skills
Meet scientists

UC Davis Tahoe Environmental Research Center (TERC) and Space Science for Schools (SS4S) are offering a 16-week afterschool program starting January 25, 2012. With the **Youth Science Institute**, you will work with scientists, conduct science experiments, take a ride on the UC Davis research vessel, experience our exciting 3-D visualization lab and much more!

Minimum Requirements:

- Complete application
- Must be currently enrolled in grade 9, 10 or 11
- Minimum 3.0 GPA
- Commitment to community service (100 hours available during year)
- Must pass interview/screening process
- Tuition of \$250

Benefits include:

- Learn new laboratory, leadership & job skills
- Work with scientists, researchers and graduate students
- Become a fully-trained UC Davis docent
- Opportunity to become a paid intern
- Receive scholarship assistance
- Fulfill required community service hours
- Receive certificate of completion & letters of recommendation

YSI is held Wednesdays from 4 – 6 p.m. at the Tahoe Center for Environmental Sciences, on the campus of Sierra Nevada College in Incline Village, Nevada. See your High School Counseling Office for an application. For more information, contact: Heather Segale, UC Davis education and outreach coordinator, (775) 881-7562 or hmsegale@ucdavis.edu.

Applications are due January 13, 2012. Visit http://terc.ucdavis.edu/education_outreach/educationprograms/youthscienceinstitute.html.
