

# TAHOE: STATE OF THE LAKE REPORT 2013

**AUG. 7, 2013 | 5:30 PM | \$5 DONATION SUGGESTED**

UC Davis Tahoe Environmental Research Center (TERC) releases the annual Tahoe: State of the Lake Report on Wednesday, August 7. Director Geoff Schladow will present the most important factors that affect lake health at a public presentation at the Tahoe Science Center in Incline Village, Nevada on August 7 at 6 p.m. TERC promotes science dedicated to saving the lake through research and education.

## **GEOFF SCHLADOW**

Dr. Geoffrey Schladow is the founding director of the UC Davis Tahoe Environmental Research Center. Dr. Schladow, who holds a doctoral degree in civil engineering, is an expert in the areas of environmental fluid mechanics, water quality modeling, and the dynamics of inland waters. He is developing computer models to link stream flow, meteorological and remote-sensing information that provide Tahoe decision-makers new management tools.
