

# Family values:

## Some insights from the rest of life

What are the basic rules that govern whether individuals should harm or help each other? In this talk, Dr. Grosberg considers this question using an evolutionary foundation from research on the family dynamics of snails, seahorses, ants, birds, and bees. Dr. Grosberg is a Professor of evolution and ecology at UC Davis and is the founding director of the Coastal and Marine Sciences Institute at the Bodega Marine Laboratory.

**TERC COMMUNITY EVENT**

October

**16**
